

**Zion's Daughters Dance Ensemble Inc. Has been a safe haven to those who face special challenges. Each year God has expanded this organization to open its arms and embrace those who are autistic (autism), foster children, hearing impaired, children from single parent households, under guardianship or from two parent households. ZionsDtrsInc is a safe place where we mentor youth/young adults to become student dance teachers and give back what they were given by embracing others. We are not just a dance organization but we speak to the whole person and embrace families as a part of our family. We foster SisterHood!**

• This program will seek to enhance their personal development and be a supportive service to assist them in overcoming the challenges they face, and equip them to become positive and productive individuals in their families, churches, schools and communities.
